

Occupational Health & Safety (OH&S)

VISION & POLICY

TITAN Group

We envisage a work environment, which ensures health and safety for all.

An environment in which we collectively protect ourselves and our colleagues from injury and look after our health.

We work towards the continuous upholding of health and safety issues, the lasting health and safety awareness among our employees, contractors and cooperating third parties and the strengthening of a culture of accident prevention and health promotion in all our operations.

At all levels of hierarchy, we are committed to

- The continuous improvement of health and safety conditions at work, for own personnel and contractors and also for visitors, identifying the hazards and mitigating the risk in the place of work
- The fostering of trust and cooperation in addressing health and safety issues and the promotion of safe behavior in all activities
- Consultation with our employees, contractors and cooperating third parties, encouraging their participation in improving health and safety at work
- Manage Occupational Health and Safety (OHS) as a unified system of goals and desired outcomes, which promotes continuous improvement
- Conform to local legislation, normative directives or other requirements related to OHS
- Ensure the continuous improvement of the OHS management system
- Observe the essential rules, procedures and safety regulations
- Derive clear responsibilities and accountabilities, for meeting all procedural requirements

We call on all our employees, contractors and cooperating third parties to support our company in the implementation of this Occupational Health and Safety vision. We expect them to follow the safe work practices and work in a way supportive of the high OHS standards developed and adopted by our company.

The General Manager
TITAN Cementara Kosjerić
